*The World Bank Economic Review*, Volume 14, Issue 3, September 2000, Pages 597–605, <https://doi.org/10.1093/wber/14.3.597>

**Published:** 01 September 2000

## Abstract

This article introduces a new database of indicators of financial structure and financial development across countries and over time. The database is unique in that it combines a wide variety of indicators that measure the size, activity, and efficiency of financial intermediaries and markets. It improves on previous efforts by presenting data on the public share of commercial banks, introducing indicators of the size and activity of nonbank financial institutions, and constructing measures of the size of bond and primary equity markets.

This content is only available as a PDF.
