Journals at the University of Arizona

The University of Arizona Libraries hosts a number of fully open access journals, overseen by the Research Engagement department. The unit provides tools, services, and expertise that enable the creation, distribution, and preservation of scholarly works and research data in support of the mission of the University of Arizona.

We publish several open access journals produced by the UA-campus community. If you are a UA faculty member or student who is interested in online journal publication and hosting services, contact Ellen Dubinsky (mailto:edubinsky@arizona.edu).
