## Your privacy, your choice

We use essential cookies to make sure the site can function. We, and our 95 [partners](#), also use optional cookies and similar technologies for advertising, personalisation of content, usage analysis, and social media.

By accepting optional cookies, you consent to allowing us and our partners to store and access personal data on your device, such as browsing behaviour and unique identifiers. Some third parties are outside of the European Economic Area, with varying standards of data protection. See our [privacy policy](#) for more information on the use of your personal data. Your consent choices apply to springer.com and applicable subdomains.

You can find further information, and change your preferences via 'Manage preferences'. You can also change your preferences or withdraw consent at any time via 'Your privacy choices', found in the footer of every page.

We use cookies and similar technologies for the following purposes:

- > **Store and/or access information on a device**
- > **Personalised advertising and content, advertising and content measurement, audience research and services development**

# Notes

1. We note that there are other approaches to measure risk, see, for example, Bea ([2009](#)) and Kutan and Yaya ([2016](#)).
2. We denote risk-seeking SD for risk seekers as RSD while Levy ([2015](#)) denotes it as RSSD. Readers may refer to Li and Wong ([1999](#)), Wong and Li ([1999](#)), Wong ([2007](#)), Levy ([2015](#)), and Guo and Wong ([2016](#)) for more information.
