Abstract

We are revising the Medicare hospital inpatient prospective payment systems (IPPS) for operating and capital related costs to implement changes arising from our continuing experience with these systems, and to implement certain provisions made by the Deficit Reduction Act of 2005, the Medicare Improvements and Extension Act, Division B, Title I of the Tax Relief and Health Care Act of 2006, the TMA, Abstinence Education, and QI Programs Extension Act of 2007, and the Medicare Improvements for Patients and Providers Act of 2008. In addition, in the Addendum to this final rule, we describe the changes to the amounts and factors used to determine the rates for Medicare hospital inpatient services for operating costs and capital-related costs. These changes are generally applicable to discharges occurring on or after October 1, 2008. We also are setting forth the update to the rate-of-increase limits for certain hospitals and hospital units excluded from the IPPS that are paid on a reasonable cost basis subject to these limits. The updated rate-of-increase limits are effective for cost reporting periods beginning on or after October 1, 2008. In addition to the changes for hospitals paid under the IPPS, this document contains revisions to the patient classifications and relative weights used under the long-term care hospital prospective payment system (LTCH PPS). This document also contains policy changes relating to the requirements for furnishing hospital emergency services under the Emergency Medical Treatment and Labor Act of 1986 (EMTALA). In this document, we are responding to public comments and finalizing the policies contained in two interim final rules relating to payments for Medicare graduate medical education to affiliated teaching hospitals in certain emergency situations. We are revising the regulatory requirements relating to disclosure to patients of physician ownership or investment interests in hospitals and responding to public comments on a collection of information regarding financial relationships between hospitals and physicians. In addition, we are responding to public comments on proposals made in two separate rulemakings related to policies on physician self-referrals and finalizing these policies.
