Economist's Corner - The oil and gas industry is unique: It is subject to constant scrutiny and regulation from multiple angles. It consists of two distinct cultures, one in the corporate setting and the other in the field. It can also be exceptionally lucrative at both the company and investor level. In addition, the oil and gas sector differs from other industries in the way energy companies are valued by the financial community.

Keywords: Acquisition and Divestiture, Company Valuation, asset approach, banking & finance, enterprise value, energy company, similar company, asset and portfolio management, cash flow, Ebitda

Subjects: Acquisition and divestiture, Asset and Portfolio Management
