

# Energy options: real economics and the solar-hydrogen system

BOOK

· Tue Jan 01 04:00:00 EST 1980

OSTI ID: 6544656

Bockris, J O'M

All price comparisons being made at present, upon which energy decisions only effective decades later are being made, are irrelevant, the author feels. The relevant economics is that of the time beyond the year 2000, when the fossil fuels will be playing a diminishing role in the energy mix, at energy prices greatly above those of the present time.
