We Care About Your Privacy

We and our 854 partners store and access personal data, like browsing data or unique identifiers, on your device. Selecting "I Accept" enables tracking technologies to support the purposes shown under "we and our partners process data to provide," whereas selecting "Reject All" or withdrawing your consent will disable them. If trackers are disabled, some content and ads you see may not be as relevant to you. You can resurface this menu to change your choices or withdraw consent at any time by clicking the ["privacy preferences"] link on the bottom of the webpage [or the floating icon on the bottom-left of the webpage, if applicable]. Your choices will have effect within our Website. For more details, refer to our Privacy Policy. [Here](#)

Notes

¹ The da

² Information on conditional life expectancies for Denmark for the decade 1990-1999 can be found at: www.mortality.org

³ Gallenson et al. (2000) published a study looking at the age of the artist on the day of the painting's execution and the value of his work. The study looks at 42 contemporary American artists, and finds that artists born before 1920 were most likely to produce the most valuable work late in their careers and those born in the 1920s and 30s early in their careers. Some artists, however, peak at age 66 or 84 and overall there is great variation.

⁴ The most important Danish paintings are obviously sold outside of Denmark.
