## Abstract

Several different approaches have been followed by researchers to test the validity of Purchasing Power Parity (PPP). Since the introduction of the unit-root tests, researchers have applied various methods to test the validity of PPP. In this paper, we use the nonstationary cointegration approach to test the validity of PPP. The results show that the nonstationary cointegration approach is more powerful than the unit-root tests in testing the validity of PPP. We provide evidence that the nonstationary cointegration approach is more powerful than the unit-root tests in testing the validity of PPP. We provide evidence that the nonstationary cointegration approach is more powerful than the unit-root tests in testing the validity of PPP.

### We Care About Your Privacy

We and our 842 partners store and/or access information on a device, such as unique IDs in cookies to process personal data. ## Notes

<sup>1</sup> For some other issues such as adjustment speed and PPP see Paya et al. ([2003](#)), Bayesian unit root and PPP see Ahking ([1997](#)), different regions of a country and PPP see Carrion-I-Silvestre et al. ([2004](#)). For some application of cointegration technique and PPP, see Taylor ([1988](#)) and Enders and Chumrusphonlert ([2004](#)).

<sup>2</sup> For some other aspects of the puzzle, see Rogoff ([1996](#)).

<sup>3</sup> In response to the lack of evidence for the PPP theory, some researchers have turned to panel unit root tests for an answer. Examples of these studies include Papell and Theodoridis ([2001](#)), Macdonalds ([2002](#)), Alba and Park ([2003](#)), Bahmani-Oskooee and Miteza ([2004](#)), Koedijk et al. ([2004](#)) and Lopez and Papell ([2007](#)).

<sup>4</sup> For some other exchange-related and PPP issues see Moosa ([1994](#)), Beach et al. ([1993](#)), Bleaney ([1992](#)), Horne ([2004](#)), Baffoe-Bonnie ([2004](#)), Arize et al. ([2002](#)), Holmes ([2002](#)), Apergis ([1998](#)), Jung ([1995](#)) and Hojman ([1989](#)).

<sup>5</sup> This section closely follows Bahmani-Oskooee and Mirzaie ([2000](#)) and Bahmani-Oskooee and Kandil ([2007](#)) in this journal.

<sup>6</sup> Outlined by Equation 13 in Kwiatkowski et al. ([1992](#)) on page 165.

<sup>7</sup> Note that Taylor et al. ([2001](#)) also applied nonlinear tests on the dollar-based bilateral real rates of France, Germany, Japan and the UK and supported PPP. Except Japan, the KPSS test in this article supports PPP in the other three countries. Again, this could be due to the use of the REER.
