We Care About Your Privacy

We and our 911 partners store and access personal data, like browsing data or unique identifiers, on your device. Selecting I Accept enables tracking technologies to support the purposes shown under we and our partners process data to provide. Selecting Reject All or withdrawing your consent will disable them. If trackers are disabled, some content and ads you see may not be as relevant to you. You can resurface this menu to change your choices or withdraw consent at any time by clicking the Show Purposes link on the bottom of the webpage. Your choices will have effect within our Website. For more details, refer to our Privacy Policy. [Here](#)

Acknowledgements

I would like to thank the British Academy Postdoctoral Fellowship and the Hallsworth Research Fellowship award for their support of my research. I would also like to thank Nahee Kang and Eva Paus, the journal editor, and the two anonymous reviewers for their guidance and inputs. All mistakes are my own.

Disclosure statement

No potential conflict of interest was reported by the author.

Notes

1. The industry is categorised as ‘electrical and electronic’ in Malaysian government statistics.
2. In its first design, the system was designed to be a simple, low-cost, and easy-to-use taking design. The system was designed to be a simple, low-cost, and easy-to-use taking design.
