Abstract

A sharp drop in prices on the home owner market is not only hard to predict but also the reason why many politicians would prefer to implement any tax changes gradually, if at all.

change in the house price index in the Netherlands between 1995 and 2000. The econometric model used in this paper is based on the Dutch housing market data.

development of the house price index in the Netherlands between 1995 and 2000. The econometric model used in this paper is based on the Dutch housing market data.

price index in the Netherlands between 1995 and 2000. The econometric model used in this paper is based on the Dutch housing market data.

system of house price index in the Netherlands between 1995 and 2000. The econometric model used in this paper is based on the Dutch housing market data.

modelling the house price index in the Netherlands between 1995 and 2000. The econometric model used in this paper is based on the Dutch housing market data.

concessions on tax and does not last long. The econometric model used in this paper is based on the Dutch housing market data.
