We Care About Your Privacy

We and our 899 partners store and access personal data, like browsing data or unique identifiers, on your device. Selecting "I Accept" enables tracking technologies to support the purposes shown under "we and our partners process data to provide," whereas selecting "Reject All" or withdrawing your consent will disable them. If trackers are disabled, some content and ads you see may not be as relevant to you. You can resurface this menu to change your choices or withdraw consent at any time by clicking the ["privacy preferences"] link on the bottom of the webpage [or the floating icon on the bottom-left of the webpage, if applicable]. Your choices will have effect within our Website. For more details, refer to our Privacy Policy. [Here](#)

Notes

¹ RMB refers to Renminbi, the Chinese currency. At the current rate of exchange (February 2010), this is approximately RMB1 = US\$0.147.

² In terms of gender distribution, for Guangzhou, males account for 51.1 per cent of the sample and 50.4 per cent of the population; for Shanghai, the corresponding figures are 50.0 per cent and 50.2 per cent respectively. In terms of age, for Guangzhou, the sample and population distributions of people aged 14 years or younger are 15.2 per cent and 14.8 per cent, respectively; however, the difference between the sample and the population for the age group 65 years or older is larger: 3.4 per cent for the sample and 7.6 per cent for the population. In the case of Shanghai, there is a high correlation between the sample and the population for both age groups: 9.5 per cent vs. 8.9 per cent for people aged 14 years or younger, and 13.0 per cent vs. 11.9 per cent for people aged 65 years or older.
