the UK's departure may well have implications for EU climate policy, we argue that it is unlikely to impact on the approach taken in Ireland. The few recent positive developments in the field of climate policy appear to be driven by increased domestic concerns about the impact of climate change, as opposed to the impact of EU membership.

KEYWORDS: Climate change environment Ireland UK Brexit EU Europeanisation crisis governance

Acknowledgements

The authors are grateful to Mary C. Murphy and John O'Brennan for the invitation to contribute to this special issue and for very helpful feedback on earlier drafts. We are also grateful to two anonymous referees for helpful comments. Any remaining errors are our responsibility.

Disclosure statement

No potential conflict of interest was reported by the authors.
