year. Student performance in the Financial Accounting course significantly correlated

with performance in the subsequent MA and AMA courses. There is also evidence of a significant relationship between MA student performance and that of both CA and AMA. The findings of this study confirmed that the load of weekly registered hours has no negative impact on the student performance. It also suggested that accounting students had outperformed nonaccounting students in accounting and nonaccounting courses.

Keywords: [accounting](#) [student performance](#) [undergraduate](#)

Notes

**Correlation is significant at the .01 level (2-tailed)

*Correlation is significant at the .05 level (2-tailed).
