Abstract

There are multiple levels of relationship between India and Nepal. This article deals exclusively with their bilateral transit relations, focusing on their negotiations in the context of Nepal as a landlocked developing country (LLDC). While LLDCs consider their free access to the nearest seaport through a transit country as a natural right, the transit countries often bargain with them from a position of strength. The study reveals that while India used the transit issue as a political leverage, Nepal claimed it as its right to access the sea, undermining or without showing adequate sensitivity towards India's security concerns. It is observed that Nepal did not benefit much from exporting to third countries due to both poor transit facilities in India and the absence of internationally acceptable bulk exported items.

Disclosure statement

No potential conflict of interest was reported by the author(s).

Notes

1. Nepal requested India for additional port facilities in Visakhapatnam in 2009. The proposal is currently in process.

13. Since many LLDCs' transit neighbours are developing countries, the Almaty Programme of Action emphasised establishing efficient transit transport systems through partnership between LLDCs, transit developing countries and their development partners. It also identified five priority sectors for expediting the trade and economic growth of LLDCS by improving connectivity. For details, see Annex I, Almaty Programme of Action: Addressing the special needs of landlocked developing countries within a new global framework for transit transport cooperation for landlocked and transit developing countries, International Ministerial Conference of Landlocked and Transit Developing Countries and Donor Countries and International Financial and Development Institutions on Transit Transport Cooperation, Almaty, Kazakhstan, 28-29 August 2003, A/CONF.202/3.
14. Several technical phrases are used in relation to LLCs vis-à-vis transit countries, such as: transit country, transit developing country, coastal economy, sea-access country, coastal neighbour, etc. UN documents bunch developing countries which provide transit to LLCs under the umbrella term 'transit developing countries'.
15. According to Nepal's Trade and Export Promotion Centre (TEPC), Nepal's exports to China, Bangladesh, Turkey and Thailand surged by 219.8 per cent, 62.6 per cent, 315.8 per cent, and 95.1 per cent respectively, in the first seven months of 2012-2013, while those to the US and Germany were down by 12.8 per cent and 17.6 per cent respectively. 31. Nepalese diplomats, political leaders and academia, sharing their views with this author, assert that they do not want to displease India during bilateral negotiations. One retired bureaucrat said that while they wanted to implement the protocol system in MoFA (Ministry of Foreign Affairs, Nepal) for meetings with top executives of Nepal, Indian bureaucrats managed to directly contact the Nepalese prime minister(s) for meetings.
