accommodation behind this façade of modernist consumption. At the same time, visual spatial analysis demonstrates how its iconic architecture continues to exert a presence beyond its immediate surroundings, serving as a landmark for wayfinding at street level. This case study adumbrates the heterogeneous layers of unspoken tensions and sensitive negotiations that enrich our understanding of a historic building such as the Coliseum and its sociocultural significance beyond the architectural fact.

Acknowledgements

Research on the Coliseum cinema was conducted as part of the project Re-mappings, Re-constructions, Re-layering and Re-visits: Cinematic pasts as urban cultural resources at Nanyang Technological University, Singapore. I wish to thank Khor Joo Saik Sdn. Bhd. and Coliseum Cinemas for furnishing me with vital information on the Coliseum, access to archival photographs and allowing me to conduct interviews with their staff, and Coliseum Lotus Five Star for permitting my team to survey the building. Fieldwork would be incomplete without consulting literature held in the Badan Warisan Negara's Chen Voon Fee Resource Centre.

26. Sound was successfully incorporated into film with the release of *The Jazz Singer* in 1927 and rapidly became the norm by the 1930s. Prior to this, dialogues in silent films were visually supplied as intertitles, and a film screening was usually accompanied by live music from an orchestra or gramophone track, and in situ dubbing of dialogues were not uncommon.
