We Care About Your Privacy

We and our 913 partners store and access personal data, like browsing data or unique identifiers, on your device. Selecting "I Accept" enables tracking technologies to support the purposes shown under "we and our partners process data to provide," whereas selecting "Reject All" or withdrawing your consent will disable them. If trackers are disabled, some content and ads you see may not be as relevant to you. You can resurface this menu to change your choices or withdraw consent at any time by clicking the ["privacy preferences"] link on the bottom of the webpage [or the floating icon on the bottom-left of the webpage, if applicable]. Your choices will have effect within our Website. For more details, refer to our Privacy Policy. [Here](#)

Show Purpose

campus friends were less adjusted than those who rarely used the platforms to interact with strangers. Some associations were moderated by SM activities. Implications of college students' development in the digital age are discussed.

Acknowledgment

We thank Dr. Kaveri Subrahmanyam for her valuable feedback to the manuscript draft, and the anonymous reviewers and the Editor for their constructive comments, which helped improve the manuscript.

Conflict of interest

There is no conflict of interest.
