ACKNOWLEDGMENTS

We would like to thank the editors, as well as two anonymous reviewers, who made invaluable suggestions. In addition, we thank participants at the conference on Europe and Global Finance organized by Daniel Mügge at the University of Amsterdam, 14-15 February 2013. In addition, we received very useful feedback from Burkard Eberlein, Calvin Huntington, Rahul Kaul, Stefano Pagliari, Tony Porter, Elliot Posner, Lucia Quaglia, Eleni Tsingou, Kevin Young, David Zaring and Jonathan Zeitlin.

Notes

1 In terms of institutionalization, we follow Ruggie (1998: 2) who focuses on predictability of behavior structured in large part by organizational routines. He identifies international organizations with their bureaucratic capacities as the key mechanism for institutionalization internationally. Given the non-treaty-based nature of soft law, many observers have described them as thinly institutionalized or network-based. See, for example, Zaring (2004).
