We Care About Your Privacy

We and our 855 partners store and access personal data, like browsing data or unique identifiers, on your device. Selecting "I Accept" enables tracking technologies to support the purposes shown under "we and our partners process data to provide," whereas selecting "Reject All" or withdrawing your consent will disable them. If trackers are disabled, some content and ads you see may not be as relevant to you. You can resurface this menu to change your choices or withdraw consent at any time by clicking the ["privacy preferences"] link on the bottom of the webpage [or the floating icon on the bottom-left of the webpage, if applicable]. Your choices will have effect within our Website. For more details, refer to our Privacy Policy. [Here](#)

We and our partners process data to provide:

³ We compute effective capital tax rates by following the strategy described in Mendoza et al. (1994). Accordingly we rely on data obtained from the OECD Statistical Compendium annual series (Revenue Statistics, National Accounts I and Economic Outlook). See Mendoza et al. (1994), pp. 300–6, for further details.

⁴ Our findings are almost the same if we apply stochastic trend rather than deterministic trend methods. The results are summarized in an appendix that is available from the authors upon request.

⁵ The application of an HP filter with a standard weight of 100 for annual series (Hodrick and Prescott, 1997) produces fairly similar estimates. We also tried some bandpass filters. However, as it is more parsimonious, with regard to degrees of freedom, the HP filter seems better suited in the presence of the short series at stake.
