We and our 848 partners store and/or access information on a device, such as unique IDs in cookies to process personal data. You may accept or manage your choices by clicking below, including your right to object where legitimate interest is used, or at any time in the privacy policy page. These choices will be signaled to our partners and will not affect browsing data. Privacy Policy

We and our partners process data to provide:

Use precise geolocation data. Actively scan device characteristics for identification. Store and/or access information on a device. Personalised advertising and content, advertising and content measurement, audience research and services development.

List of Partners (vendors)

- ¹ The unemployment invariance hypothesis suggests that the long-run unemployment rate is independent of the labour force. While Layard et al. (1991) provided evidence in support of this hypothesis, Karanassou and Snower (2004) provided a critique of it.
- ² The data for the sample period are released from the website of the Japanese Ministry of Internal Affairs and Communications, http://www.stat.go.jp/.
