## We Care About Your Privacy

We and our 907 partners store and access personal data, like browsing data or unique identifiers, on your device. Selecting "I Accept" enables tracking technologies to support the purposes shown under "we and our partners process data to provide," whereas selecting "Reject All" or withdrawing your consent will disable them. If trackers are disabled, some content and ads you see may not be as relevant to you. You can resurface this menu to change your choices or withdraw consent at any time by clicking the ["privacy preferences"] link on the bottom of the webpage [or the floating icon on the bottom-left of the webpage, if applicable]. Your choices will have effect within our Website. For more details, refer to our Privacy Policy. [Here](#)

# Highlights

- We conduct an experiment of voting under different primary types.
- We examine voter choices in primary and general elections when costs increase.
- Voters are largely unwilling to engage in strategic voting.

# Acknowledgments

The authors would like to thank the College of Charleston Summer Undergraduate Research Funding program for help funding this research, and Daniel Taber and Kathryn Abbott for their research assistance. Partial funding for this project came from the Center for Public Choice & Market Process, School of Business, College of Charleston. Earlier versions of this paper were presented at annual meetings of the Southern Economic Association, Economic Science Association and of the Public Choice Society. Monika Koepl-Turyna and Matthew Holian provided helpful comments.
