Abstract

We estimate the effect of household wealth on the demand for life insurance using survey data from a broad cross-section of the USA. This procedure allows us to test the

Pratt-Arrow... estimate... faced with... average... aversion... Finally, we... tions when... and that on... as risk

We Care About Your Privacy

We and our 843 partners store and/or access information on a device, such as unique IDs in cookies to process personal data. You may accept or manage your choices by clicking below, including your right to object where legitimate interest is used, or at any time in the privacy policy page. These choices will be signaled to our partners and will not affect browsing data. [Privacy Policy](#)

We and our partners process data to provide:

Use precise geolocation data. Actively scan device characteristics for identification. Store and/or access information on a device. Personalised advertising and content, advertising and content measurement, audience research and services development.
