2. Brie, 2010; variation of the M, the litera see Brie Van de V
3. Resea to Malay universit universit competitive entry requirement; and (3) highly qualified academics. Comprehensive

universities (also called multi-disciplinary universities) focus on a wide range of courses and fields of specialization. The three characteristics among these universities are: (1) wide range of subject areas; (2) competitive entry requirement; and (3) highly qualified academics. Focused universities focus on certain fields of knowledge related to the original objective of their establishment. They have the same characteristics as research universities.

4. All research is on the focused and established institutions: Universiti Malaya, Universiti Sains Malaysia, Universiti Kebangsaan Malaysia, Universiti Putra Malaysia, and Universiti Teknologi Malaysia.

5. Also called multi-disciplinary universities, which focus on a wide cross-section of courses and fields of study: Universiti Islam Antarabangsa Malaysia, Universiti Malaysia Sarawak, Universiti Malaysia Sabah, and Universiti Teknologi MARA.

6. They concentrate on specified disciplines linked to the original objective of their establishment: Universiti Utara Malaysia, Universiti Pendidikan Sultan Idris, Universiti Malaysia Terengganu, Universiti Sains Islam Malaysia, Universiti Tun Hussein Onn, Universiti Teknikal Melaka Malaysia, Universiti Malaysia Pahang, and Universiti Malaysia Perlis.

7. Peer-reviewed journals, books, and articles are published by the university. The research is carried out by qualified academics. The research is published in the journal of the university. The research is published by Johnes (1995) and

8. This is the first time that the research is published. The research is published by O'Donne

Ad  
Notes

## Amir Arjomandi

Dr Amir Arjomandi is a lecturer at the School of Accounting, Economics and Finance, University of Wollongong. Amir's research interests are in efficiency and productivity, environmental economics, applied microeconomics. His works are published in several journals including Economic Modelling, Journal of the Asia Pacific Economy, Applied Economics Letters, Studies in Economics and Finance, and Research in International Business and Finance.

## Mad Ithnin Salleh

Dr Mad Ithnin Salleh obtained his doctoral degree from the University of Wollongong, Australia, specialising in efficiency and productivity. His area of interest includes performance measurement, efficiency and productivity, and developing a quantitative method for management and quality management system. He is currently a senior lecturer at the Faculty of Business and Economics, Sultan Idris Education University, Malaysia.

## Abbas Iqbal

Mr Abbas Iqbal is an associate professor at the Faculty of Business and Economics, Sultan Idris Education University, Malaysia. His research interests include casual relationships, performance measurement, efficiency and productivity, and developing a quantitative method for management and quality management system.
