Show Purpose of others

Labour Dynamics in Australia (HILDA) Survey, we illustrate the role of housing in Australian household portfolio composition in particular and the experience of homeownership for different Australian households, with the primary objective being to identify issues that affect home equity decumulation.

Key words:

- Homeownership
- Household finance
- Retirement, Financial stress, Housing equity

Acknowledgements

This paper uses unit record data from the Household, Income and Labour Dynamics in Australia (HILDA) Survey. The HILDA Project was initiated and is funded by the Australian Government Department of Social Services (DSS) and is managed by the Melbourne Institute of Applied Economic and Social Research (Melbourne Institute). The findings and views reported in this paper, however, are those of the author and should not be attributed to either DSS or the Melbourne Institute.
