A screenshot of a mobile privacy policy overlay. The overlay is a white rectangle with rounded corners, positioned over a blurred background of a mobile app interface. On the left side of the overlay, there is a circular icon with a dark background and several small, colored dots (green, yellow, red) arranged in a pattern. The text within the overlay is as follows: At the top, the heading "We Care About Your Privacy" is displayed in a dark, sans-serif font. Below this, a paragraph explains that the user and their 845 partners store and/or access information on a device, such as unique IDs in cookies, to process personal data. It states that users may accept or manage their choices by clicking below, including their right to object where legitimate interest is used, or at any time in the privacy policy page. It also mentions that these choices will be signaled to their partners and will not affect browsing data, with a link to the "Privacy Policy". Below this paragraph, another heading "We and our partners process data to provide:" is shown. This is followed by a list of purposes: "Use precise geolocation data. Actively scan device characteristics for identification. Store and/or access information on a device. Personalised advertising and content, advertising and content measurement, audience research and services development." At the bottom of the overlay, there is a link to the "List of Partners (vendors)". On the right side of the overlay, there are three dark blue buttons with white text. The top button is labeled "I Accept" and has a small red 'X' icon next to it. The middle button is labeled "Essential Only". The bottom button is labeled "Show Purpose".

enterprise. NGOs served unique coordination functions across institutional sectors and mobilised critical resources for conservation and development. Recommendations for NGOs engaged in ecotourism in China include investment in training programmes with local people and community-based organisations, facilitating collaborations between businesses and communities, working directly with businesses, and promoting cooperatives.
