oceans and increasing securitization of the world's oceans. Areas of conflict exist most notably around a divergence in opinions over the legitimacy of individual sectors as components of the 'Blue Economy', in particular, carbon-intensive industries like oil and gas, and the emerging industry of deep seabed mining.

Q KEYWORDS: Blue Economy Blue Growth oceans governance Sustainable Development Goals

Acknowledgements

This paper is built and expands upon earlier analysis completed for a report to the Sea Power Centre – Australia for the Pacific 2017 Conference. Thanks to anonymous reviewers of this and earlier drafts of this paper. Their comments and feedback significantly enhanced the quality of this manuscript.

Disclosure statement

No potential conflict of interest was reported by the author(s).
