### Abstract

Background: Establishment of Sri Lankan Twin Registry demanded development of ethical guidelines, as an effective ethical framework was not available in Sri Lanka.

Design: Objectives were to find out whether the ombudsman concept exists in current informed consent practices and to investigate opinion about ombudsmen. We searched

Conclusions: The concept of an ombudsman is conceptually and ethically sound and acceptable but the challenges posed by this very same solution to creating a better process of informed consent will have to be faced.

Q Keywords: developing countries informed consent ombudsman

## Acknowledgments

The authors acknowledge grant support from The Wellcome Trust, UK.
