Notes

¹The acronym will be used to refer to organized associations that self-identify and are registered as a GOC, also to distinguish from the colloquial/loose use of the term community.

²A discussion on this goes beyond the scope of this work, however, census data often are limited and other classifications are based on researchers' understandings of how community members should be "counted" (e.g., up to third generation, those who self-identify being of a certain origin, those who speak the language of the country of origin, and so on).

³All names are pseudonyms.

⁴Because of space limitations, more detailed discussions will be provided elsewhere.
