## Abstract

As an ongoing community outreach project, a pictorial touch-screen kiosk and Web site was developed for 48 MedlinePlus® tutorials. This learning experience serves Davidson County, Tennessee, and the surrounding area. The kiosk is available at the Davidson County Hospital and the University of Tennessee Health Science Center. The kiosk provides an approach to health literacy education and training for health issues, and the kiosk is available at the Davidson County Hospital and the University of Tennessee Health Science Center. The kiosk provides an approach to health literacy education and training for health issues, and the kiosk is available at the Davidson County Hospital and the University of Tennessee Health Science Center.

### We Care About Your Privacy

We and our 845 partners store and/or access information on a device, such as unique IDs in cookies to process personal data. You may accept or manage your choices by clicking below, including your right to object where legitimate interest is used, or at any time in the privacy policy page. These choices will be signaled to our partners and will not affect browsing data. [Privacy Policy](#)

We and our partners process data to provide:

Use precise geolocation data. Actively scan device characteristics for identification. Store and/or access information on a device. Personalised advertising and content, advertising and content measurement, audience research and services development.
