## Acknowledgments

The authors gratefully acknowledge the comments of Robin Hogarth, Marco Novarese, Terry Burnham, John Nofsinger, Laurence Chud, Philipp Otto, and Gordon Graham on an earlier draft. They also thank Valeri Safonov for his help in obtaining the Russian materials cited in the appendix, Vadim Pokhlebkin for translating them, and Deepak Goel for his help with our statistical analysis. This paper derives in part from Prechter [1999, pp. 393-395] and from Prechter's presentation to professors and graduate students at MIT's Lab for Financial Engineering on September 12, 2003. Some of this material was presented in substantially different form in Prechter [2004] and [Prechter and Parker \[2004\]](#). This research was supported in part by a grant from the Socionomics Foundation.
