Abstract

The current study examined how aspects of vocational privilege directly – and indirectly via work – relate to living a calling. We suggest that the relationship between work volition and work meaning is explained by individual differences in social class, and that this relationship is mediated by work volition. Implications for research on work meaning and the role of work volition in living a calling are discussed.

We Care About Your Privacy

We and our 842 partners store and/or access information on a device, such as unique IDs in cookies to process personal data. You may accept or manage your choices by clicking below, including your right to object where legitimate interest is used, or at any time in the privacy policy page. These choices will be signaled to our partners and will not affect browsing data. [Privacy Policy](#)
