An analy

account

Warsa

revealed

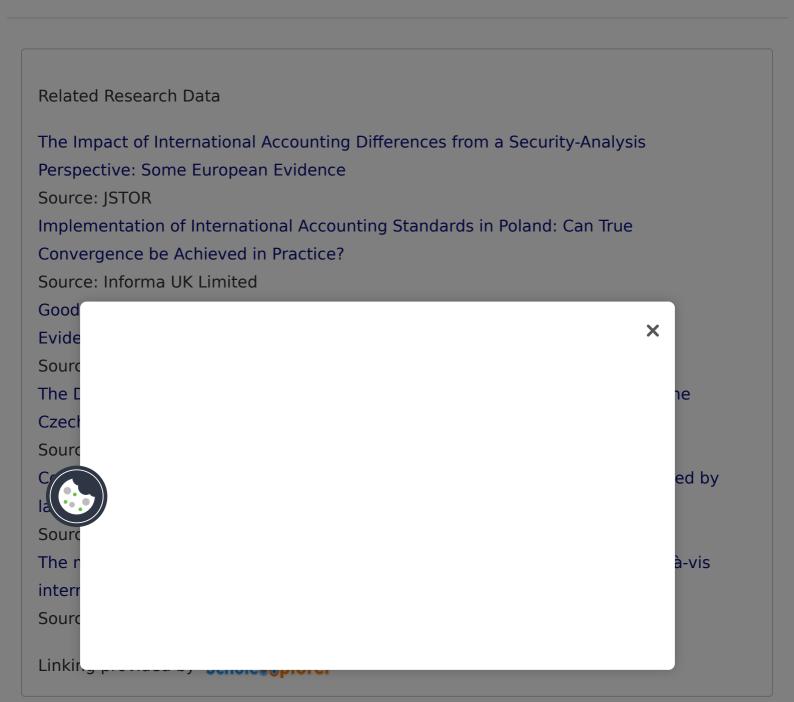

regulation

were understated by an average of 35%. The main reasons for the differences were

that Polish accounting regulations do not allow regular revaluations of tangible fixed assets, require different accounting treatments of positive and negative goodwill on consolidation and allow in certain circumstances the exclusion of subsidiaries from full consolidation.

## Acknowledgements

The authors gratefully acknowledge the generous financial support of the Certified Accountants Educational Trust of the Association of Chartered Certified Accountants. The authors also wish to thank the two anonymous reviewers for their helpful comments on earlier versions of the paper.
