Abstract

Upon receiving a request from the U.S. Agency for International Development (USAID) to participate in a research initiative, the American University in Bulgaria (AUBG) agreed to provide data on its graduates. The AUBG is a private university in Blagoevgrad, Bulgaria, founded in 1991. It is the only American university in Bulgaria and has a reputation for its high quality of education. The AUBG has a long history of providing education to students from all over the world. The AUBG has a strong relationship with the USAID, which has been a major source of funding for the university. The AUBG has a strong reputation for its high quality of education, and its graduates are highly respected in the United States. The AUBG has a strong relationship with the USAID, which has been a major source of funding for the university. The AUBG has a strong reputation for its high quality of education, and its graduates are highly respected in the United States.

We Care About Your Privacy

We and our 845 partners store and/or access information on a device, such as unique IDs in cookies to process personal data. You may accept or manage your choices by clicking below, including your right to object where legitimate interest is used, or at any time in the privacy policy page. These choices will be signaled to our partners and will not affect browsing data. [Privacy Policy](#)

We and our partners process data to provide:

Use precise geolocation data. Actively scan device characteristics for identification. Store and/or access information on a device. Personalised advertising and content, advertising and content measurement, audience research and services development.
