Abstract

Purpose: To report on two patients with refractory uveitis treated with tocilizumab; a new human anti-TNF- α monoclonal antibody (CTP-529; Actemra®; AbbVie Inc., North Chicago, IL, USA).

Design: Case report.

Methods: Two patients with refractory uveitis were treated with tocilizumab.

Results: Both patients achieved clinical remission.

Conclusions: Tocilizumab is a promising treatment for refractory uveitis.
